

NeuroAxis Global

Executive Corporate Partnership Brief

Hybrid Occupational Health • Stroke Prevention • Rehabilitation Ecosystems

NeuroAxis Global partners with corporations, insurers, and institutions to reduce workforce health burden, improve productivity, and deliver structured prevention and rehabilitation pathways through an integrated physical + digital care model.

Strategic Solutions

Executive Screening & Prevention	Stroke and cardiovascular risk screening, executive reporting, prevention training.
Ergonomics & Injury Prevention	Workstation assessments, posture optimization, workforce resilience programs.
Occupational Rehab & Return-to-Work	Evidence-based recovery pathways supporting safe return-to-work outcomes.
Institutional & Insurance Partnerships	Aligned rehabilitation frameworks for insurers, NGOs, and institutions.

Engagement Tiers

Bronze: Annual Workforce Wellness Screening

Silver: Occupational Rehab + Ergonomics Partnership

Gold: Full Institutional Retainer (Flagship Ecosystem Partnership)

Why NeuroAxis Global

- Reduce absenteeism and long-term healthcare costs
- Improve workforce resilience and recovery outcomes
- Access hybrid rehabilitation delivery across borders
- Align with insurance and institutional frameworks
